

I am writing this to ask you to let Wisconsin decide what their "No Call List" regulations should be and not impose a federal less restrictive "No Call List" set of regulations on us. Since the implementation of Wisconsin's no call list, I don't ever get any annoying unwanted phone calls. The residents of Wisconsin do not want to be disturbed in the privacy of our own homes by unwanted unsolicited sales calls. Let Wisconsin Decide. We know best what we want (or don't want) in our state!!
